Anti-Bullying Policy

What is Bullying Behaviour

Bullying behaviour can be defined as unwanted negative behaviour, verbal, psychological or physical, conducted by an individual or group against another person (or persons) and which is repeated over time.

Types of Bullying Behaviour

Bullying behaviour exists in many different forms, some are not as obvious as others, but are just as damaging to the victim. Listed below are some of the more common types of bullying, one or more method may be used by the person displaying bullying behaviour.

Physical

Physical bullying includes any physical contact that would hurt or injure a person like pushing, hitting, kicking, punching, tripping, etc. Physical bullying can put the person experiencing bullying behaviour at risk of injury and makes them feel powerless. Taking something that belongs to someone else and destroying it would also be considered a type of physical bullying.

Verbal

Verbal bullying usually takes the form of name-calling or making nasty remarks or jokes about a person's religion, gender, appearance, sexuality, ethnicity, socio-economic status, or the way they look. It can also include freezing the victim out by exclusion or spreading rumours.

Threats

Making threats against a person or their property is also a type of bullying. It can be a threat to damage or take something belonging to the victim or to hurt them physically. Often the threat is not actually carried out, but the fear created by the threat can be enough to upset the person experiencing bullying behaviour.

Cyber

Cyber bullying is done by sending messages, pictures, or information using electronic media, computers (email & instant messages), mobile phones (text messaging & voicemail) and social networking websites. This activity can be upsetting and harmful to the person targeted. This type of bullying can allow the person who is displaying bullying behaviour to hide their identity which may have a bigger impact on the person experiencing bullying behaviour.

Homophobic

Homophobic bullying is motivated by prejudice against a person's actual or perceived sexual orientation and gender identity- lesbians, gay males, bisexual, transsexual, or transgender people.

Racist

Racist bullying is motivated by prejudice against a person's skin colour, cultural or religious background or ethnic origin.

The Impact of Bullying behaviour

The damage inflicted by bullying behaviour can frequently be underestimated. It can cause considerable distress to juniors, to the extent it effects their health and development, or at the extreme, causes them significant harm.

Recognising Bullying Behaviour

There are a number of signs that may indicate a person is being bullied:

- Reluctance to come to a venue or take part in activities
- Physical signs (unexplained bruises, scratches, or damage to belongings)
- Stress-caused illness – headaches, and stomach aches which seem unexplained
- Fearful behaviour (fear of walking to a meeting, going different routes, asking to be driven)
- Frequent loss of, or shortage of, money with vague explanations
- Having few friends or drop out of newer members
- Changes in behaviour (withdrawn, stammering, moody, irritable, upset, distressed, not eating, reduced concentration, drop in performance)
- Anxiety (shown by nail-biting, fearfulness, tics)

This list is not exhaustive and there are other possible reasons for many of the above. The presence of one or more of these indicators is not proof that bullying is actually taking place

If you or your child has concerns in relation to bullying please contact one of Your Junior Leaders as advised under our Junior Leader Contacts
